Letter of Recommendation - Damian Amalraj

April 2022 - June 2022

As founder and CEO at Displayed, I had the pleasure of working with Damian from April 2022 to June 2022, during which he was employed as a developer in our startup. Throughout his tenure with us, Damian distinguished himself as a talented and dedicated professional.

During Damian Amalraj's time at DisplayedWeb, he demonstrated outstanding commitment to improving and customising web designs for various clients using ElementorPro. He played a key role in the development and implementation of tailored Content Management Systems (CMS), enabling efficient management and updating of web content according to clients' needs.

By solving technical challenges and issues during the development process, Damian showed strong problem-solving skills and the ability to work in a fast-paced environment where requirements constantly changed. His work was characterised by precision and dedication, leading to successful projects and valuable experiences in web development.

Damian's role in our team was crucial, and he approached every project with a remarkable level of initiative and dedication. He consistently demonstrated a deep understanding of technical concepts, which he applied to solve problems. His ability to work independently, while also being a collaborative team player, contributed greatly to our startup's success during its critical early stages when volatility was high.

Damian is a driven, hungry, and highly capable individual who would be an asset to any team. I have no doubt that he will continue to make contributions to the field of development.

Please feel free to contact me if you require further information.

A handwritten signature in black ink that reads 'Otto Lundahl'.
